COWAY

**Technology-driven,
clean air for
everyone**

Enjoy fresh and clean air!

At Coway, we want to reassure your well-being; for this reason, we developed the industry-leading HyperCaptive™ Filtration process, to remove up to 99.999% of nano-sized particles as small as 0.01µm.

Combined with our patented and lab-tested Coway GreenHEPA™ technology, our filters capture and further neutralise potentially harmful particles.

We are Air Makers, aiming for supreme cleanliness by filtering even the smallest allergen, bacteria, dust, mould, pollen, viruses and also bad odours and VOCs.

HyperCaptive™ Filtration

Removes **99.999%** of **0.01 micrometre** particles
