24 Hours programmable digital timer

Oven heat can be adjusted to a specific time and duration. This function allows you to arrange your meal time. Your meal will be ready even if you aren't at home.

A digital timer display showing the time 08:00 in red LED digits. The display is set within a yellow circular graphic.

**Minimum
energy
maximum
performance!**

Compared to equivalent products, **Simfer's A Energy Class** ovens saves energy with spending much less electric.

That means cleaner environment and lower bills.

A close-up photograph of several fruit popsicles on a white plate. The popsicles are made of a light-colored liquid frozen with various fruits, including kiwi, strawberries, and blueberries. In the background, a white plate holds a mix of fresh blueberries and raspberries. The text 'Keeps fresh' is overlaid on the image, with 'Keeps' in white and 'fresh' in red. The entire image is framed by a white border with rounded corners.

**Keeps
fresh**
